

# UTAH ATE Skill Certificate Teacher Report

## Class Roster

District: Utah  
 School: Utah High School  
 Teacher: SMITH

Date: 05-03-2004  
 Test: CHILD CARE (CURRICULUM)  
 Questions: 70  
 Standards: 7

	Total Ques
STANDARD 1	12
STANDARD 2	8
STANDARD 3	2
STANDARD 4	12
STANDARD 6	18
STANDARD 8	18
PILOT	10

#1 Lists what Standards are covered in the report and how many questions on the test are tied to each Standard. The number of questions shows the "weight" given to the Standard-the more questions, the heavier the weight. I.e., Standards 6 and 8 on this particular test have the heaviest weight and Standard 3 the least.

### Student Name

#3 Summary (average) of how entire class did on each Standard. This is an excellent tool in helping see what Standards need more instructional time. On this particular report, the teacher should take a look at Standards #1 and #3 and adjust instructional time to bring up student scores.

#6 Class Average

#2 Columns showing how individual students did on each Standard. Column 1 shows how individual students did on Standard #1, etc. Columns 5, 7, 9-12 for this test had no questions as listed in the upper right hand box (#1).

#7 Performance. This is what the computer has read for question #81. If it is not bubbled, the default is "no."

#10 Students are grouped by the period that they marked on their scan sheet. If students don't mark a period, they are put in period 0.

#4 Pilot questions are to "test" future questions; not counted in the student's score.

#8 Students not meeting certification, but achieving 65-79%.

#5 Individual student scores based on number of questions on test.

#9 Students meeting certification -- 80% and above on Objective test and 80% and above on each Performance component (yes on question #81) = certification.
